

Congratulations!

As a successful learner in the Futures Thinking specialization here on Coursera, **you are now a permanent member of the Institute for the Future community of practical visionaries** dedicated to thinking more creatively and strategically about what can be different in the future.

We are SO excited to have you as a part of our community. **We'd like to invite you to join our alumni network**, where you can continue to grow and practice your futures thinking skills. This is **a free service** we provide to help our community stay connected. **Click here to [join now by sharing your email address and future interests – it only takes one minute.](#)**

As a member of our alumni network, you're invited to participate in IFTF's Foresight Talks, **a free webinar series**, where seasoned foresight practitioners share their practical experiences. You'll be able to learn from futurists around the world how *they* create, communicate, and inspire their colleagues, partners, and users with foresight and insight. You'll get **a monthly newsletter** featuring some of our favorite signals of change. And you'll also receive links to download **the latest forecasts and scenarios** as soon as they are publicly available.

By taking the Futures Thinking Specialization on Coursera, YOU now have direct access to the essentials of foresight based on over 50 years of IFTF futures thinking. We want to make sure you can use these essentials any time you want. Before you go, take another look around and download any readings and tools you'd like to refer back to and use again in the future.

Your fellow futurist,

Jane McGonigal, PhD  
Research Director, Institute for the Future

**P.S. Please feel free to share any of the course materials with friends and colleagues.** In fact, the future needs more great minds and inspired individuals like you. Who will YOU invite to join you here on Coursera? We'd love to meet some of your favorite people and get their unique point of view on the future. Send 'em our way! **[Here's a link you can use to share this opportunity to learn how to think like a futurist here on Coursera.](#)**
