

Warning

ONLY TRY THIS AT HOME

- Or on your own systems with permission
- The information that we will discuss in the next few weeks can be used for good...or bad
- Only use the information and tools to secure your own systems
- If you are in an organization, conducting pen-testing, please get permission
- Best thing to do is test on your own home systems

It's happened before...

- Organizations log information
- Strange activity can be looked at closer
- You may end up sitting on the other side of the table if you start testing these tools on real systems and don't have permission
- Are you authorized???
